DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/9/2006 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 4 is rejected under 35 U.S.C. 102(b) as being anticipated by Snodgrass et al. 5,167,837.

Snodgrass et al. disclose a viscous material application apparatus (col. 1, ll. 7-10), which comprises a main body (124) having a pressurized chamber (131) for storing a viscous material, the pressurized chamber connecting through to a discharge port (16), a viscous material supply device (100) for transferring the viscous material under pressure to the pressurized chamber, a discharge pressure regulating device (126) for regulating a discharge pressure of the viscous material by increasing and decreasing a capacity of the pressurized chamber when the viscous material inside the pressurized

Art Unit: 3754

chamber is pressurized and discharged (col. 7, ll. 20-32), wherein the discharge pressure regulating device includes an actuator (col. 6, ll. 4-9), and a diaphragm (col. 6, ll. 9-13) which is engaged by the actuator and which transforms under influence of the actuator and increases and decreases capacity inside the pressurized chamber (col. 5, ll. 49-68 onto col. 6 and 7, ll. 1-21).

Response to Arguments

4. Applicant's arguments filed 2/8/2006 have been fully considered but are moot in view of the new ground(s) of rejection.
